

# Make yourself@home with

Secure, fast wireless Internet access for students, researchers and staff worldwide

UNIVERSITÄT  
HEIDELBERG  
Zukunft. Seit 1386.

Direct Internet access with your laptop or smartphone - free of charge?

***Use eduroam!***

Switch on your laptop or smartphone and it just works!

You only have to remember one username and password.

Whether you are here on campus or at another participating institution: **make yourself @home!**

## at Universität Heidelberg

eduroam® is a global service that enables students, researchers and staff from participating institutions to obtain Internet connectivity across campus and when visiting other participating institutions by simply opening their laptop or activating their smartphone or other portable device.

With eduroam, you get Internet access not only via Universitätsrechenzentrum's wireless network, but also when visiting other participating universities, colleges, research centres and libraries.

### How to get eduroam

- Configure your device for eduroam
- Connect to the wireless network with SSID "eduroam"
- If asked, enter your username and password from your institution (your username should be similar to *userID@uni-heidelberg.de* (please note: this is not your email-address))
- You are now connected to the wireless network

For help send an e-mail to [laptop-team@listserv.uni-heidelberg.de](mailto:laptop-team@listserv.uni-heidelberg.de)

For more information see: <http://eduroam.uni-hd.de>

The eduroam service is coordinated within Germany by Deutsches Forschungsnetz (DFN) and across Europe by a team from the GÉANT project, which is funded by the European Commission. eduroam is available at participating universities, research centres and libraries in more than 40 countries worldwide.

Details are available via: **[www.eduroam.org](http://www.eduroam.org)**
